

Councilman Stidham Dies Here Suddenly

City Councilman Grady Stidham died early last Saturday morning, March 16, 1957, of a heart attack while he was driving on the street leading from his home to downtown Cameron. He was 65 years of age.

His car went out of control and struck a tree near the intersection of Fourth and Houston Streets. Taken to the hospital by ambulance, he was reported dead upon arrival there.

A member of the city council in Cameron, he had also served on the Commissioners' Court of Milam County from 1932 to 1946. Stidham was born in Jones Prairie and had lived in Milam County all his life. He had much interest in farms in this area as well as in local politics. At the time of his death, he was a candidate for re-election as councilman of Post No. 3 in the forthcoming April 2 election.

He was a Mason and a veteran of World War I, having served in the U.S. Navy.

Funeral services were held at 3 p.m. Sunday at the First Methodist Church in Cameron with Rev. E. J. Davis officiating. Burial was in Oak Hill Cemetery.

Survivors include his wife; his mother, Mrs. B. F. Stidham of Calvert; two sons, Grady Stidham, Jr., of Waco and Owen Stidham of Pasadena; two daughters,

Mrs. Doris Newton of Burnet and Mrs. Myrtle Baskin of Dallas; one brother, Tom Stidham of Jones Prairie; one sister, Mrs. Perry Tindall of Calvert and seven grandchildren.

Pallbearers were W. A. L. Robinson, H. H. Chamberlain, Fred Folschinsky, Eber Flinn, Marshall Terry, Carl Black Tilman Johnson and Frank Monroe.

Rains Measured At 1.04 Inches

Cameron received 1.04 inches of rain last Sunday, March 17, with surrounding farm areas receiving like amounts or more. Farmers in the area express delight in getting this rain but hope for a let-up until they have time to complete their planting.

This one day of rain was all to be received during the week ending at 6 p.m. Monday March 18. Temperatures for the week ending at the same time ranged from a low of 39 degrees to a high of 75 degrees. Both temperatures and rainfall is the official report for Cameron as is turned over to the U. S. Weather Bureau by Alvin Hefft, superintendent of the Cameron Water Works.

High and low temperatures for the week follow.

Giles Avriett Dies In Austin

Giles L. Avriett, formerly of Maysfield and Cameron, died Tuesday, March 19, 1957, in Austin.

Born in Maysfield on February 2, 1885, Mr. Avriett died at the age of 72. Short funeral services were held at the Weed-Corley Funeral Home in Austin at 10 a.m. Wednesday. Final rites were to be held at 3 p.m. Wednesday at the First Presbyterian Church in Cameron with the Rev. John Solomon officiating. Interment was in Oak Hill Cemetery.

Survivors include his wife, Mrs. Don Lewis Avriett of Austin; one son, Col. Giles C. Avriett of the U. S. Air Force; one daughter, Mrs. W. L. McIntire of Brookline, Massachusetts; three sisters, Miss Myrtle Avriett of Cameron, Mrs. W. O. Triggs of Cameron and Mrs. Charlie McDermott of Junction and two grandchildren.

Invitational Women's Golf Tournament To Be Held May 14

Local women golfers at the Cameron Country Club have now as a group become affiliated with the Central Texas Women's Golf Association.

Officers of the local group this week have announced a golf tournament for women to be held in Cameron on May 14. Tee-off time will be at 8:30 a.m.

This will be the first annual women's invitational golf tournament ever to have been held in Cameron. Prizes will be given to those placing first, second and third in each flight. Announcement of the tourney is to be sent to all clubs belonging to the association with the hopes that numerous women golfers will enter.

Officers of the Cameron group are Mrs. Claude Bennett of Cam-

eron, president; Mrs. June Golay of Rockdale, vice president; Mrs. D. Smith of Cameron, secretary, and Mrs. Ester Manning, treasurer. One new member entered the local association as of last week. She was Grace Smith.

This group meets for play every Tuesday with a business meeting being held the first Tuesday of the month. At the present time there are approximately 25 members who are participating in the weekly matches.

At the meeting held Tuesday, March 12, the club voted to accept the invitation to meet with the Lampasas group on some Tuesday in the near future.

Schedule of play for all clubs in the Central Texas Association for the forthcoming year will be announced in the near future.

Most publicized motion picture since "Gone With The Wind," will open Friday, March 29, at the Milam Theatre for a week's run. This picture, "Giant," has its setting in Texas and stars such personages as Elizabeth Taylor, Rock Hudson and James Dean. The picture is taken from the novel by Edna Ferber, which at the time it was released in Texas caused a furore in certain parts.

Charlie Bloch, 74, died March 19 of a heart attack. Born in Buckholts, funeral services will be held at St. Monica's Church in Cameron at 9 a.m. Thursday with Father George J. Duda and Father Alfred Kallus officiating. Rosary is to be held at 8:15 p.m. Wednesday at Marek-Burns Funeral Home.

Farmers from all over Milam County are especially urged by County Agent J. D. Moore and Herndon Wilson of the Wilson Produce Company to attend a meeting to discuss planting blackeye peas in Milam County this year. The meeting will be held in the Community Center at Minerva at 7:30 p.m. Monday, March 25. J. E. Swinell, Jr., of the Dixie Bean and Pea Company located at Athens will attend to discuss the local market for the peas as well as production methods. Coffee, soft drinks and cookies will be served.

There were 561 head of cattle at the Cameron Livestock Auction last Thursday, March 14, for which prices ranged from eight dollars for canner and cutter cows to \$20.50 for butcher calves. Buyers totaled 74 of which 14 represented packers. There were 162 sellers present.

City police officers investigated an automobile accident about 9:44 p.m. Monday, March 18, at which time a pickup truck driven by Joe Humplik collided with a cow and calf on Highway 36. The cow and calf were reported to be property of Bill Matyastik.

Civic Garden Club members here have set the first Iris Show of the city to be held from 3-7:30 p.m. April 10. Mrs. Leo Fuchs will be chairman of the show.

William Hensley, 80, died Saturday at 1 p.m. He had been a resident of Milano for the past 50 years and was a retired farmer. Funeral services were held Sunday, March 17, 1957.

Courthouse Offices Need Added Space For Efficient Operations

By Chas. C. Smith, County Judge
We now proceed to the second floor area of the Courthouse building.

Access to this level is by long stairs at either end of the east-west corridor. The floor is arranged around the main courtroom and surrounding the courtroom area are offices for various court officials. These include the district judge, district clerk, county attorney, court reporter, jury room and also the sheriff's office.

One of these rooms which was originally the jury room is occupied by the County Law Library and is also used by the Naval Recruiting Officer because no other space is available for either of these uses.

Most of the flooring on the second floor is of wood, which is a fire hazard in itself. The floors, walls and ceilings need refinishing and repairing, and their existing conditions indicate the difficulty of properly maintaining and cleaning them.

Some of the accompanying photographs reveal the shortage of space, the deteriorated conditions and the poor arrangement of the areas generally. The main courtroom is two stories high to the roof. A skylight over the Court-

City Council Accepts \$4,565 Bid For New Equipment In Cameron

Members of the Cameron City Council last Tuesday night, March 19, voted to accept the low bid submitted by H. W. Lewis Equipment Company of San Antonio for a new tractor, loader and back hoe.

This low bid was in the amount of \$4,565.60 for these pieces of equipment to be used by the city water and street departments. Bids for the equipment were received from a total of six equipment companies. This bid was lower to the amount of \$1,127.40 for this equipment of those specifications needed by the two departments as regards other bids submitted.

Council members also adopted a resolution in memory of Grady Stidham, councilman who died last Saturday, March 16. The resolution which read, "our deepest sympathy is extended the family of Grady Stidham," was recorded in the minutes of the meeting.

Maysfield Man Handles Oil Job

Elliott W. Atkinson of El Dorado, Arkansas, vice president-treasurer of Lion Oil Company Division of Monsanto Chemical Company, has been appointed by the president to handle special projects, Charles Allen Thomas, Monsanto's president, has announced.

Atkinson, who will assume his new duties June 1, will transfer his residence to St. Louis. A native of Maysfield, Texas, Atkinson joined the Lion Oil Company in 1924 and served in various capacities until 1931, when he became assistant auditor. In 1934 he became general auditor and was elected director in 1939 and comptroller in 1940. In 1943, he was elected treasurer-comptroller and in 1955 he was elected vice president-treasurer.

Atkinson is the son of the late Mr. and Mrs. Hubert Atkinson of Maysfield and the nephew of Miss Lillian Atkinson of Cameron.

He will leave April 2 for Italy where he will study leases the Lion Oil Company has for development. His headquarters will be in Milan, Italy.

There will be 33 track teams from schools in all sections of Texas represented in the 1957 Cameron Relays to be held here next Saturday, March 23. This annual event is probably Cameron's greatest claim to the Sports Hall of Fame.

Events to be on the program will include the 120-yard high hurdles, 100-yard dash, 440-yard dash, 180-yard low hurdles, 440-yard relay, 880-yard dash, 220-yard dash, one mile run, one mile relay, pole vault, high jump, broad jump, 12-pound shot put and the discus throw.

The 1956 Cameron Relays found Port Arthur winning with a total of 43 points. Port Arthur High School track men will again be on hand at the meet this year to defend their championship. The spiked shoe men from that school will be under the critical eye of Coach Wayne Cornelius.

High point men, each with 10 points each, in the 1956 track meet were Bobby Cline of Belton, Poole of Weimer and Patterson of Waco. There were eight records broken in the meet last year and another one tied.

According to Superintendent Wiley Loughmiller, Coach Leo Jackson and Principal Dick Young, the 1957 Cameron Relays appears to have a lineup of stronger competition this year than ever before. They express their belief that even more records will be equalled or broken this year than was the case in 1956.

Lunch rooms at the local school will be open for the convenience of boys from the other schools.

Schools to be represented and their respective coaches for which Coach Jackson and his track squad will be playing host at Yoe High Stadium follow.

They are Navasota, Coach O. L. Pearson; Thorndale, Bobby Frederick; Seguin, J. M. Pechal; West, Charlie Jones; Weimer, Billy Nelson; University High, Clarence Dierking; Hallettsville, Douglas Thomas; McGregor, Norman Smith; Giddings, Boone Jackson; Gatesville, Arthur Sweet; Rosebud, Joe Hawkins; Belton, John H. Smith; Temple, Pat Patterson; Thrall, Jimmy Cain; Killeen, Bill Lierman; Brenham, Tommy Mims; Waco, Wayne Gardner; Hillsboro, Dexter Bassinger; Rogers, George Moore; Somerville, Joe McFarling; Marlin, Bryce Reid; Caldwell, T. E. Farris; Groesbeck, Jack C. Faubion; Bryan, Wayne Rideout; Chilton, Ralph Burnett; La Grange, Harold Oswald; Rockdale, Ernie Lawrence; Hearne, John Ulrey; Mexia, Bobby Parker; Port Arthur, Wayne Cornelius; Round Rock, Clinton Jirasek; La Vega, Jack Brewer; and Yoe High, Leo Jackson.

First choice for FFA Sweetheart selected at the District I, area III, banquet Thursday night, March 14, is Miss Mary Evelyn Smith of Thorndale. Miss Smith was one of 20 sweethearts attending the banquet.

Stidham's Name Still On Ballot

Councilman Grady Stidham, who died last Saturday, March 16, will have his name on the ballot of the city election to be held here Tuesday, April 2.

This decision was handed down by the Attorney general's office in Austin after that office was contacted by City Secretary Wayne Wieser this week. Should Stidham then be elected to the councilman's post, the city council will then have to call for a special election to select a holder for Post No. 3 on the council.

Stidham, who was running for re-election to that council post, is opposed by Richard Moseley. Moseley is seeking election to the city office in his first political race.

Others in the race are Clifford Thompson and Hayden Lawrence for Post No. 4 and Lincoln Mondrik and August Kunz for Post No. 5.

Correction

Last week The Herald ran a story concerning Mr. Bassel Wilson of this community and State Representative Reuben Talasek of Bell County.

In it was the statement, "three checks given by Wilson ... to Talasek ... were returned marked 'not sufficient funds'." This was an obvious error as the checks were given to Mr. Wilson by Mr. Talasek.

The Herald hopes no one was confused by the error which was corrected in another part of the story.

Local Guard Has New Enlistments

Eight members were added to the rolls of Battery C, 649th Anti-aircraft Artillery Battalion during the past two weeks, Milam County National Guard Unit officers reported today, as a result of its recent recruiting campaign.

Four of the new guardsmen enlisted during the previous week listed as Donald J. Tepera, Juan Canizales, Donald R. Eubanks and Monty O. McDaniel.

Sworn in during last week's drill period were Billy T. Daniel, Donny R. Heine, Elmore F. Lincoln and Larry W. Simank.

All eight are high school students in Milam County schools and were enlisted as privates. Two reside in Cameron, one in Rockdale, one in Buckholts and the remaining four in Thorndale.

Three more applications for enlistment including one from a veteran also have been received. See National Guard Back Page.

Reportable Diseases In Milam Total 20

Reportable diseases in Milam County during the week ending Saturday, March 16, were 20 in number according to Dr. John B. Bryson, director of the Milam County Health Unit.

These diseases are one of pneumonia, two of measles, eight of chickenpox and nine of strept. throat.

START OF MILAM YOUTHS ON THE ROAD of poultry production got under way on March 1 while reports this week indicate that almost without exception the youths are making great progress toward readying their chickens for the May 4 dead-weight line. FFA and 4-H girls and boys from all over the entire county were present on the courthouse lawn on March 1 to receive individual presentation of 50 chicks from business house of Cameron. An award banquet will be held at 7:30 p.m. Saturday night, May 4, for the young growers and their sponsors. Shown above after having presented 50 chicks to young poultry enthusiasts are Henry Dreyer and August Kunz.

Worship together this week

We are well blessed. The doors of our churches and synagogues are wide open... waiting for us to enter. Set aside a time each week... a time apart from the "busyness" of living. You'll find more joy in each day, if you give some time each week to worship.

And the Wolf family here—will you just look at those boys! They're feeling very grown-up and proud as punch, going to a Service with Mom and Dad.

Here's Dave Judson and Bill Miller. Good friends for a good many years now. They hardly ever "talk" religion—they just always find time to get to Services each week.

Ever been a stranger in any town? Then you've known loneliness. And you know how comforting it is to come upon a church or synagogue... where the doors are always wide open to everyone.

Bear Creek Group Applying Fine Conservation Practices

Milam County farmers and ranchers' watershed approach to conservation is gaining much attention these days because of the interest in flood prevention dams.

Because of topography, cover and other accompanying details, all watersheds are not adapted to this type of structure or system. However, the watershed approach is still used to get the soil and water conservation job accomplished.

Evidence of this is found on the Bear Creek watershed which heads at Ad Hall School and extends eastwards to that point where it hits Little River just south of Cameron.

Soil Conservation Service personnel at Cameron working with landowners in this watershed area refer to it as the Bear Creek Conservation Group. They also claim this group of farmers and ranchers has as much real conservation on the ground and as many "real conservation farmers" as any area its size in the entire State of Texas.

There are about 55 farm operators in this one group of which 41 are cooperating with the Central Texas Soil Conservation District to give their land the full conservation treatment that it needs. Most of the others are expected to become cooperators as soon as planning technicians can schedule time to work with them this year.

Those persons in this area wishing to see some conservation on the land and talking to some outstanding farmers might see any of those in this group having already started such projects.

Some of the outstanding ones include Steve Polzer, Johnny Richter, Henry Richter, Joe Mueck, Herman Mueck, M. J. Sparks, Gordon Baskin, H. G. Chamberlain, O. W. Whittington, Bill Love, Herbert Huebner, Roy Hensley and others to numerous to mention.

In this single watershed, one can see every conservation practice that is applied in this area of the state.

This watershed probably will not qualify for a flood prevention project, but the individual farmers are applying the kind of conservation to the land that will prevent floods. At the same time, such application of these practices control erosion and improve fertility of the soil.

Final Rites Held For Mrs. Daniels

Final rites were held at 2 p.m. Thursday, March 14, 1957, for Mrs. Ervin Daniels, 39, who died at her home in Cameron at 7:15 a.m. Wednesday, March 13. Services were held at Marak-Burns Funeral Home Chapel.

Rev. P. L. Caperton officiated at the services. Burial was in Oak Hill Cemetery.

Born November 18, 1917, in Phelps, she had lived in Cameron for the last six months. She previously lived in Burnet. Mrs. Daniels was a member of the Baptist Church.

Surviving are her husband, Ervin Daniels of Cameron; three sons, Billy Thomas, J. T. and Cecil Wayne Daniels, all of Cameron; two daughters, Mrs. Frances Bradley of Cameron and Mrs. Nancy Christopher of San Angelo; one brother, W. M. Burroughs of Giddings; one sister, Mrs. Dorothy Nichols of Giddings, and five grandchildren.

Recent rains over the Little River-San Gabriel Soil Conservation District resulted in sufficient amounts of run-off waters to fill or partially fill farm pond reservoirs on a number of district cooperator farms.

This has returned some thought to the ever present possibility that it could rain again in this country and if it does, what would be better than to have all of the fine stock pond reservoirs that have been constructed lately (during the past five years) stocked with fish?

Stocker fish are generally available through federal or state hatcheries at no cost to the applicant other than the expense involved in picking the stockers up and transporting them home.

Applications for such fish should probably be made right away since they are generally made available on a first request basis. Then too, delivery services to local points (such as Bartlett) can be better and more quickly organized on the part of the hatchery when a large number of applications for fish are received from a given area.

You may call at your local Soil Conservation Service office for assistance in filing an application blank. The forms are available there and although the personnel of that office do not stack up against the Number One fisherman of this area, pertinent facts concerning pond management for fish production may also be had.

Looks like there is always some sort of a situation coming along that kinda upsets the applicant as far as average expectations are concerned. Gives you a kind of "Can you top this" affair.

There's Cooperator Henry Abel near Sharp with a new pond that

for the immediate time receives run-off waters from a total of seven acres. This reservoir is now nearly full and stands water to a depth of seventeen feet and a total amount of some 2.8 acre feet.

This should be enough water for at least two years, but then there's District Cooperator Albert Janks near Bartlett, with a pond three years old having nearly a hundred acres drainage area and right up to now, not one drop of runoff has entered the pond. Total rainfall since both ponds were constructed is essentially the same for both sites.

Highlights of the Texas Broiler Festival to be held in Nacogdoches on May 31 and June 1 will include the selection of a Texas Broiler Queen, a "Texas-sized" broiler barbecue, the awarding of many prizes, the presentation of an outstanding entertainment program and speakers of national reputation. Some 15,000 people are expected to attend the Festival.

The Texas Broiler Council is backing the giant-sized affair with assistance from every segment of the industry and those related to it.

Mr. and Mrs. Royal Jeter of Houston spent the weekend in Cameron visiting with relatives and friends.

Mrs. Dan Robinson of Milano visited in Cameron briefly Saturday morning. She was enroute to Temple where she attended the wedding of her granddaughter, Miss Shirley Manley to Jimmie Carlston.

Miss Nita Nabours and Miss Nan Hubert, students at SWTSC of San Marcus, spent the weekend visiting with relatives and friends in Cameron.

THAD SAYS

"I see where the Texas Commissioner of Agriculture (who is campaigning on the voter's time when he should be on the job in Austin) is against the President's program for drouth relief. He says that the great state of Texas 'are not geared for greater aid now and the legislature must have more time to plan for future participation.' It seems to me that if this man had been doing his job properly the years he has been in Austin, an effective drouth relief program would now be in effect and our farming and ranching populations would not be in such a desperate condition as they are today.

"I ask your support in the April 2nd Senate election. Farmers and ranchers need immediate emergency relief through State and Federal partnership and long range, government backed, low interest credit. Thad Hutchison will work for you on these programs."

Paid Political Adv.

Mr. and Mrs. Lennie Bollinger and son, Duane Bollinger, visited relatives in Houston over the weekend.

Miss Mary Lou Anderson, district Girl Scout leader from Austin, was a special guest at the Father-Daughter banquet held in Simon-George Memorial Hall Tuesday night.

Mr. and Mrs. Philip Reimer and son, Vernon Reimer, visited with relatives in Rosebud Sunday.

Mr. and Mrs. Glenn Abercrombie and daughter, Sidney of Arizona, were weekend guests in the home of Mr. and Mrs. Milton Brown and family.

Mr. and Mrs. Robert Glaser and son, Robert, Jr., of Cameron, were guests in the home of Mr. and Mrs. Willie Ray Boecker and son, Charles at Waco, Wednesday, March 13. The occasion was to celebrate the birthday of Mrs. Boecker. Other guests were Mr. and Mrs. W. F. Boecker and Doris of Temple, Mr. and Mrs. Robert Krupicka and Susan of Waco, Mr. and Mrs. Willie Ray Hoff of Burlington, Mr. and Mrs. Edwin Marlek and Mr. and Mrs. Franklin Glaser of Rockdale and Ervin Jungmann of Buckholts. Supper was enjoyed by all.

W. A. Morrison of Austin was a business visitor in Cameron Saturday.

Mr. and Mrs. Frank Mikulec, Sr., are the proud grandparents of a baby girl born Sunday, March 17, to Major and Mrs. William Montgomery of Wichita, Kansas. The child weighing 9 pounds and 4 ounces is welcomed by two brothers, Billy and Gregory. Mrs. Montgomery will be remembered as the former Miss Mickey Mikulec.

Mr. and Mrs. Clem Zarosky visited with Mr. and Mrs. Johnny Bohac and family in Granger Sunday.

Mr. and Mrs. Mike Dickenson of Dallas visited in Cameron Thursday of last week.

Mrs. Carrie O'Neal left last week for an extended visit in the Houston home of her daughter, Mr. and Mrs. A. S. Posey.

Louise Thompson had the best decorated box at the Father-Daughter banquet held in Simon-George Memorial Hall Tuesday night. She is a fifth grade Girl Scout. Second place went to Jo-lene Wied, also a fifth grader. Barbara Jackson, a second grade Brownie, was third place winner; and Jo Ann Anderson, fourth grader, won fourth place.

Mrs. Ben Magness was admitted to a Waco hospital Wednesday, March 13.

Mike Pybilski of Victoria visited briefly in Cameron Monday.

Mr. and Mrs. Ray Tucker and daughter and Mr. and Mrs. Alvin Mullinax and family of Cameron were among those attending a birthday dinner given in honor of J. K. Elliott and Mrs. Ray Tucker, in the home of their parents, Mr. and Mrs. N. M. Elliott of Dallas, Sunday, March 17. Others present were Mr. and Mrs. Marvin Elliott, Mr. and Mrs. J. K. Elliott and family, Mr. and Mrs. Dwight Price, Jr., and daughter and Miss Dorothy Elliott, all of Austin. The honorees received many nice gifts and all had an enjoyable time.

Those Damn Kids . . .

TOO OFTEN UPON SEEING rough and tumble antics and hearing unusual and suspicious-sounding noises, we adults give rise to such thoughts as "those damn kids are at it again."

Newspapers and especially those in metropolitan areas come out almost daily with headlines of some act of juvenile delinquency. Every area throughout the nation as well as locally are constantly having meetings of civic and other groups to study juvenile delinquency in their particular areas.

Locally, we older citizens shudder as a youth drives his vehicle down the street with twin-smitties blaring. However, they in turn undoubtedly shudder when we let our voices rise during a political discussion in downtown areas. Our hearts skip a beat when these youngsters turn a corner with screeching tires and often judge their speed at many times what it actually is. When we turn a corner and our tires scream although we are traveling only 10 or 12 miles per hour, we blame the sound on the amount of air in the tires.

Two or three or more youths walk down the street with their clothing dirty and possibly torn and our first thought is that they have been fighting in little gang-wars. They probably have been playing some sport or working with livestock in their 4-H or FFA projects, which only recently has produced champion animals in statewide stock shows.

We see them leaving town over the weekends and first thoughts turn to youthful delinquent acts. Actually the case is more likely to have been for the purpose of the youth attending some state meeting of hundreds of other youths such as the Synod's Youth Convention recently in San Antonio attended by Johnny Solomon.

Moving about the city loaded down with bundles, we too often expect to find them cluttering public areas with junk. Instead they are fighting just such acts as within the last few days FHA members have distributed paper bags for vehicle owners to use to prevent litterbug acts.

Hot rod club members on Wednesday of last week met with the Cameron Rotary Club and impressed those men more with their intelligence than with talk of reckless driving.

Juvenile delinquency does occur at times and receives more publicity than the many acts of achievement accomplished by our youths.

So the next time we think "those damn kids are at it again," just remember that we should at the same time take into consideration that such is an act of a minute minority of juveniles while the majority are actually doing things of great achievement.

Watchdog Of City Funds . . .

One of the most active figures in city and other local politics is dead. Grady Stidham during the months just past was probably the most controversial figure on the Cameron City Council.

However, even his opponents on issues will be the first to agree that his reasons for such opposition were sincere.

It mattered not whether the city was planning to spend a "buck" for a miscellaneous item or thousands of dollars for an entire plant, Stidham's first thought was "do we have the money," or "why do we need such?"

This characteristic of Grady Stidham kept in the forefront of each of the other councilmen's minds the need of staying within a budget. For these constant checks on the city's treasure, Grady Stidham may well be remembered as the watchdog of city funds in Cameron.

Stidham was one, who may have been opposed to the vast majority of Cameron citizens on a particular issue, to fight for what he believed to be right even had the number been every other person in the entire universe. Whether you believe in what he was doing or not, you had to admit his sincerity for his side of the story.

Furthermore, this member of our city government was loyal to his friends as well as to his beliefs. When he had made up his mind to take a stand for or against an issue or person, it took more than mere rumors or minor issues to change his mind. He stood by his ideals so long as they measured up to his standards.

However, those who at times may have been opposed to Grady Stidham on an issue of any nature will admit he did not carry his feelings on his sleeve. He would be the first to speak to you when you approached a group in which he was one. . . . After wishing you a good day, he would also be the first to give you a "ride over the coals" for your side of the issue.

Grady Stidham will be missed by the members of his family, his many friends and by those knowing him only as an acquaintance. His foes, and he had quite a few on one issue or another, will also miss him, probably more than his close friends. Without staunch opposition, the pleasure of a battle loses much of its interest.

The entire City of Cameron has lost a man all will long remember. Let us all remember, a man that fails to have opponents at one time or another is one, who is doing nothing.

LITTLE RIVER PHILOSOPHER CLAIMS CURRENT WAVE OF GRAFT AND EASY MONEY HASN'T TOUCHED THE FARMER

Editor's note: The Little River Philosopher on his Johnson grass farm on Little River points out a little known fact in his letter this week.

Dear editor:

I don't know whether it's just better reported and therefore oftener denied and in the news more, but there seems to be rash of graft and scandal in high and low places these days.

Money is changing hands under strange circumstances in all kinds of endeavors, from government places all the way from Washington down to the states on down to the local level in some places, although understand not in all places. Racketeers are being discovered in labor unions, influence peddlers in high and low places, phony insurance schemes are being uncovered, etc.

But I have just been thinking and searching my mind all afternoon as I was sitting out here on my farm watching spring creeping up on me, and while

it's pleasant to watch spring creeping up, experience has taught me that when it does, grass and weeds are going to start creeping up to, at any rate, to get on with my train of thought. I have been searching my mind and it has suddenly dawned on me that I can't think of a single case of influence peddling taking place on any farm anywhere.

I mean, you never hear of anybody seeking out a farming job so he can use his position to pick up some easy money.

You hear of fraudulent schemes taking place in some areas in the insurance business, in the oil business, in the housing business, in the uranium business, in the army pants making business, etc., but agriculture stands as a bulwark against the inroads of sharpsters and crooks. I was talking about this to one of my neighbors and he said the reason for that is the same as the one explaining why sharpsters and crooks haven't hit the salt flats of Utah—there's no money there.

But I have ignored his argument, and would like to point out that never in the history of this nation has a Congressional investigating committee had to haul out the television cameras and look into corruption on the farm, it's never had to inquire into why one farmer was seen driving a new car every fall and a freshly ironed pair of khakis every day while another struggled along in the same patched-up overalls, why one farmer, by apparently knowing the right people, could grow twice as much per acre on his land as the farmer across the road.

You just don't find any influence peddlers among farmers. Why even if we tried, I doubt if us farmers could influence a single piece of legislation.

Yours faithfully,
J. A.

Mr. And Mrs. Theo Allen Feted At Recent Eastern Star Program

Highlight of a program following the recently held regular meeting of the Order of Eastern Star was the honoring of Mr. and Mrs. Theo Allen, worthy matron and worthy patron of the local organization.

Mrs. Grace Reid, associate matron, was hostess at the meeting. This venerable program was given with the officers forming a circle of love around the honored guests as Mrs. Gertrude Harsha sang "Always." Each star point assisted by Mrs. Mable Dodson gave a reading appropriate for the occasion.

Mrs. Virginia Sanders presented a gift to the honorees from the officers. Mrs. Harsha concluded the program by singing "May God Bless and Keep You."

Tables in the dining room were covered with a white damask cloth. A nosegay of pink rosebuds and net was in the center of the table and flanked by crystal candle holders and pink candles. The guests' table carried out the same decorative scheme of pink rosebuds with the words of "Winifred and Theo" in pink glitter letters.

Assisting Mrs. Reid in the hostess' duties were Mrs. Dorothy "Piggy-back" is no longer just a phrase for playing with children. The railroads in 1956 hauled 210,000 flat cars of loaded trailers as compared with 75,000 in '54.

Nearly 100 railroads use two-way radio communications on trains, in yards and in terminals.

TELEPHONE TALK

by C. L. Carson, Manager

Texas Gains 146,000 Telephones

Some figures I saw the other day showed that 146,000 telephones were added in Texas last year.

It occurred to me that this is enough telephones to supply a city of 400,000 people.

What does this mean to you? Well, it's important to you because you can reach more people by telephone here in Texas than ever before. And it's also good evidence that the telephone company is working to keep pace with the progress of the state.

Right here in Cameron, a lot of people are adding additional telephones in their bedrooms and kitchens.

We'll install them wherever they serve your family best. A real bargain. The cost is low, only \$1.00 a month plus tax and a small one time installation charge.

Keep Up With the Faster Pace

It's no secret to anyone that life is moving at a faster clip. All around us there are more things to do and see. People everywhere, it seems, are wishing there were more hours in the day as the pace of living gets faster.

Well, one good way to keep up with the pace is to use Long Distance frequently. For business or social calls, save yourself time and trouble by keeping in touch with out-of-town customers and friends by telephone.

And when you place your Long Distance calls, you can speed them by giving the operator the number you want.

You'll find that your calls go through twice as fast when you call by number.

Have Fun With the Phone

From time to time, some of our customers have kept a "diary" of telephone calls — calls they make and calls they receive.

At the end of a week's time, they have been surprised to find the number of errands their telephone ran for them, and the miles covered by the calls.

There were calls to friends, the grocery store, the dry cleaner, the drug store, and maybe the dentist or the doctor.

Anyway, there were many calls made and received, and lots of miles covered around town.

The telephone in your home is there for you and your family to use. Use it often and make all the calls you want to make. In other words, have fun with the phone.

Call by number. It's twice as fast.

SOUTHWESTERN BELL TELEPHONE COMPANY

Austin spent the weekend with her parents, Mr. and Mrs. Bob Varner.

Mrs. Hallie Byrd Webb of Fort Worth and Mrs. Lillian Terry of Cameron visited Mr. and Mrs. Jim Mann part of last week.

Thimet-Treated Seeds Grow Cotton Stalks With Built-In Insecticide

Thimet, the new systemic insecticide that gives young cotton plants "built-in" immunity against insects, will be available in larger quantities this year. Cameron seed processors are carrying this product for their customers.

American Cyanamid Company has announced plans to increase production and distribution of the product. Thimet was introduced commercially last year on a limited basis in selected cotton growing areas to test its effectiveness as a seed treatment.

Thimet is applied to cotton seed by processors with special equipment. As the seed germinates, the insecticide enters the sap stream and is transferred to all parts of the plant. Insects feeding on the plant absorb the insecticide and are killed. This action from within the plant gives Thimet its systemic classification. The plant is immunized from four to eight weeks, eliminating the need of two to four early season sprays or dusts.

Data accumulated by the U. S.

Department of Agriculture from last year's grower trials indicated "striking results in aphid control." The U.S.D.A. report stated: "An unusually heavy early season infestation of these pests in Texas cotton producing areas provided excellent test conditions. In 10 large scale experiments in which treated seed approximated one pound per acre, the treated cotton plants averaged only 0.3 aphids per square inch of leaf surface six weeks after planting, compared to 14 aphids per square inch of leaf surface six weeks after planting, compared to 14 aphids per square inch on untreated plants — a ratio of one to 47. Control continued for several weeks longer where infestation persisted."

The U.S.D.A. report said treated plants in the most heavily infested field were almost twice as tall as untreated plants two months after planting. "By 12 weeks after planting, the treated cotton plants averaged 19 forms (squares, blooms and bolls) per foot of row, against an average of nine per foot on the untreated plants. At the same time treated plants averaged 6,000 blooms per acre, compared to 1,600 blooms per acre for untreated plants. Yield measurement showed that the treated plants produced 39 percent more cotton than the untreated."

In addition to aphids, Thimet is effective against thrips and spider mites. Results of experiments show exceptional promise for the control of serpentine leaf miners, cotton flea hoppers, flea beetles, cutworms, false wireworm adults, and partial control of boll weevils.

Last year's trial sales of Thimet were limited primarily to sections of Texas, Arkansas, Mississippi and Oklahoma. This year

American Cyanamid will make the insecticide available throughout the cotton producing areas from California to the Carolinas.

Thimet will continue to be handled only through selected seed processors. Growers may bring their own seed to the plants for treatment. The U.S.D.A. has recommended custom treatment of seed as "the safest and best method of mixing and distributing the systemic insecticides for use by either researchers or farmers."

American Cyanamid is continuing research on the use of Thimet with corn, peas, beans, lettuce, peanuts, potatoes, tree fruits and tobacco seedlings. The company reports results look promising.

Miss Dusek Will Graduate In May

Miss Anita Dusek of Cameron is completing her senior year at Mary Hardin-Baylor and is scheduled to receive a bachelor of science degree at the May graduation exercises.

She is an elementary education major. During her life at Mary Hardin-Baylor, Miss Dusek has been a member of the Royal Academia Literary Society.

Miss Dusek is the daughter of Mr. and Mrs. J. Edwin Dusek of Cameron.

The cage method of managing egg producing poultry flocks continues to expand in Texas. In 1953, 272,000 cages were in use. By the end of 1956 an estimated 1,647,000 cages were being used. In order to keep producers who use this method posted on the latest information on the subject, a cage layer clinic will be held at Texas A & M College on March 27. All interested persons are invited by Extension Poultry Husbandman Ben Wormeli to attend. Starting time is 9 a.m. and the meeting place is the Memorial Student Center.

Local SP Agent Tells Of Film

"Railroading By Radar", a 17-minute sound color motion picture has been produced by Southern Pacific for showing before luncheon, civic, trade and other groups. J. T. Wade, SP freight agent, said today.

The new motion picture tells the story of Southern Pacific's new Englewood Gravity Yard at Houston, one of the most modern installations of its kind in the country. The film explains handling of cars through this \$7,000,000 facility and how these operations contribute to the railroad's efficiency in serving the public.

Prints of "Railroading By Radar" may be obtained for showing by writing the Southern Pacific Public Relations Department, Room 604, Southern Pacific Building, 503 Franklin Street, Houston. Wade said.

42 Leisure Club Holds Meeting

Mrs. Leo Laake won high score in the games of "42" played Thursday afternoon, March 14, by members and guests of the 42 Leisure Club in their regular meeting at the home of Mrs. W. W. Balhorn, hostess to the group.

Second high was won by Mrs. Jim Crouch while Mrs. L. F. Slama won the 84.

St. Patrick's theme was carried out in the refreshment plate service.

The rate cut tendered by the railroads covered eight states. The total saving to agriculturists in the 8 states has been \$2,371,882, of which \$1,669,389 has benefited Texans.

Action of the railroads, the only carriers which have come to the aid of farmers, ranchers and dairymen, has been hailed by Texas agriculture leaders as the biggest contribution of the drought-stricken area. The move was also commended by President Eisenhower.

The rate reduction, originally scheduled to expire January 15, has been extended through March 31, they said.

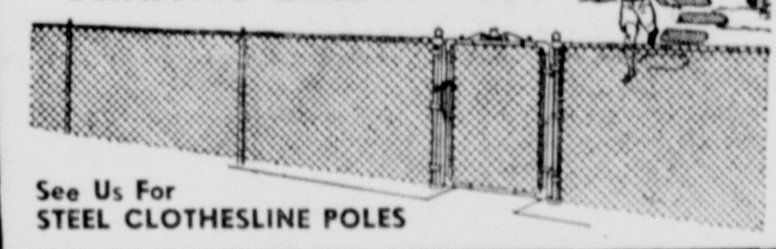

Railroads Aid Farmers On Rate

Drought-ridden Texas farmers, dairymen and ranchers will reap additional large benefits as a result of the railroads' extending their 50 percent freight reduction on shipments of hay.

This information was made available this week by J. T. Wade, Cameron freight agent for Southern Pacific, and J. F. Spivey, local Santa Fe agent. They quoted source of their information on this extension of freight rate reductions as the Texas Railroad Association.

Since October 13, when the rate slash went into effect through mid-January, Texas agriculturists were aided by the railroads to the extent of 1,669,389. During that time the railroads shipped 134,983 tons of hay into Texas at the 50

It grows earlier in the spring and later in the fall; is more resistant to drought, disease and nematodes and above all is a higher producer of forage. NEW! FOR COTTON

Eliminate
2 to 4 early-season
dusts or sprays!

Plant seed treated with

THIMET®

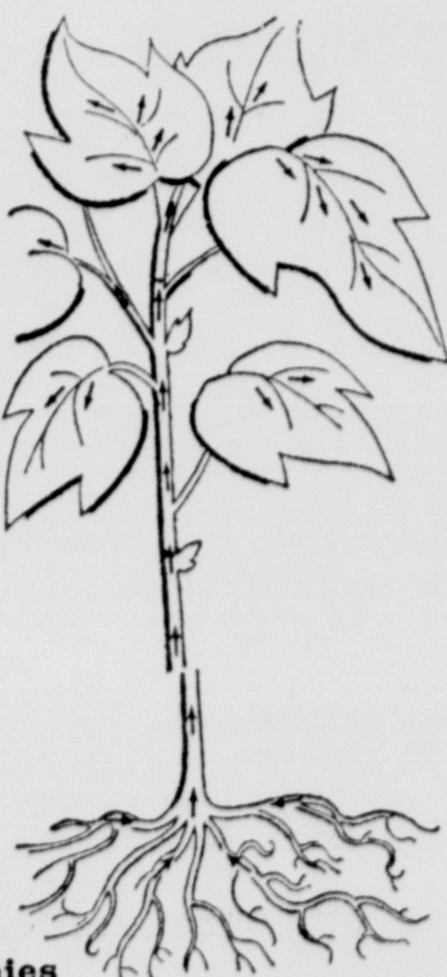

Revolutionary new insecticide—applied by commercial seed treaters—grows into plant, makes cotton deadly to thrips, aphids, mites through first 6 weeks of growth.

Systemic action of Thimet gives plants "built-in" protection. You save the time, money and labor normally required for first six to seven weeks' spraying or dusting.

Protects all parts of all plants during critical early weeks. Ordinary sprays or dusts protect only parts of plants covered by insecticide. But because Thimet actually grows into the plant, it protects every leaf, every stem, right from the start. Plants actually kill insects before they can do damage.

Eliminates problem of timing sprays or dusts. No matter when thrips, spider mites and aphids strike, your cotton stays protected. Even when fields are too muddy for conventional spraying or dusting equipment.

Proved in 3 years of testing... 1 year of grower use. Thimet was developed by American Cyanamid after years of research and experimentation. It has been successfully tested by state and federal experiment stations throughout the south.

How Thimet® works. As plant sprouts from treated seed, Thimet is absorbed and sent to all parts of plant tissue. Entire plant becomes toxic to insects. After Thimet's job is done, it breaks down, leaves no harmful residues in cotton fibre or seed.

These companies will treat your seed or supply seed treated with THIMET:

Soil Moisture On Milam Farms Good For Growth Of All Plants

Soil moisture on Milam County farms last week was very good in top soil for all plant growth and was too wet during the week for general field work.

This in itself is very encouraging to farmers according to J. D. Moore, Milam County farm agent.

General condition of small grain in the area is very good, he said. Cattle should now be taken off fields intended to be harvested, the agent pointed out. Some grain

He declared that along with wanting the best school system possible for Cameron youths, he also wanted watchful spending of the taxpayer's dollar. Vogelsang has served three years with the school board.

is too rank in its growth for this early in the season.

Temporary and permanent pastures within the county are very good, but there is some danger of clover blight in cattle. Heavy rains to put water in stock tanks are still needed, Moore declared.

Some tomato plants have already been set in the fields. Moore says cool north winds this week have been unfavorable for commercial vegetable crops but adds that moisture will off-set this. It is doubtful if cold weather damaged plants in the fields.

Progress of farm work was slow during last week, but Moore says with fair weather much corn and maize planting will take place on Milam County farms.

and are being processed at this time.

Battery C also reported the loss of one of its officers. Lt. William W. Holloway resigned from the unit after moving to Houston several months ago.

Holloway had been a member of Battery C since July, 1949, when he enlisted shortly after his discharge from the army as a corporal. He was promoted to sergeant and later became the Battery's First Sergeant, succeeding William S. (Shirley) McLean. He held that assignment until he received a commission as second lieutenant about three years ago.

He formerly was employed by the Gaither Motor Company in Rockdale, but for the past year and a half has been with Phillips Petroleum Company. Last year it transferred him to Houston, and he resides there with his wife and two children.
